In June 2018, the Company entered into an unsecured converting loan agreement with an entity associated with former Chairman, David Lloyd, to provide up to A\$300,000 additional working capital. The loan is subject to an interest rate of 3%. In June 2019, the facility was reduced to \$200,000 and in March 2020 the loan was extended until 30 June 2020 and is no longer convertible.

In October 2019 the Company announced it was seeking interim funding via convertible notes. \$375,000 has been received up to 31 March 2020, including \$30,000 issued in settlement of liabilities.

8.8 If Item 8.7 is less than 2 quarters, please provide answers to the following questions:

- Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

Answer: The level of cash flows is likely to change if the Company successfully completes its capital raising, project acquisition and recompliance with Chapters 1 and 2 of the ASX Listing Rules.

- Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer: Shareholders approved a major capital raising and the proposed acquisition of an operating interest in an oil and gas project in North Dakota on 6 April 2020. The Company lodged a prospectus on 6 April 2020 to raise a minimum of \$5,000,000 and it lodged an application for re-admission to trading of its shares on the ASX on 9 April 2020. Given the current instability in the global markets generally and the oil and gas industry in particular, there is no certainty that the Company will successfully complete the minimum capital raising, project acquisition and recompliance with Chapters 1 and 2 of the ASX Listing Rules.

3. Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: The Company's ability to continue its operations and to meet its business objectives depend on its ability to successfully complete the minimum capital raising, project acquisition and recompliance with Chapters 1 and 2 of the ASX Listing Rules.
